

# User Guide

## VHS Overlay

### After Effects Template

#### Install Missing Font

On opening the project, you'll be warned of a missing font. Go ahead and install this first. It's **free** and can be downloaded from the following link.

##### VCR OSD Mono

<https://www.dafont.com/vcr-osd-mono.font>

#### Add Your Footage

Open the project in After Effects and add your footage to the **bottom** of the composition **01. Main Comp - Add Your Footage**

#### Trim and Render!

Trim the **Main Comp** to your footage and add it to the Render Queue - adjust your settings and hit Render!

For more awesome VHS effects including more tape damage, tape functions (PAUSE, REWIND etc), background animations and retro 80s titles go grab our essential **VHS Toolkit for After Effects!**

VHS Toolkit (full version)
